A New Truck for a New Era

THE 1½-TON INTERNATIONAL CAB-OVER-ENGINE TRUCK

The rear of the new Model C-200 shows how modern the International cab-over-engine design looks inside to increase the special body design.

See the new Model C-200 at display in the International Showroom which is the International Building, CANADIAN NATIONAL EXHIBITION, Toronto.

September 10 to September 15.

See the new Model C-200 at display in the International Showroom which is the International Building, CANADIAN NATIONAL EXHIBITION, Toronto.

With the compact 17-foot frame of the business cycle comes a demand for a truck specifically designed for easy handling in today's multi-lane streets. International introduces a new cab over-engine truck—Model C-200—perfectly adapted for a new way of handling loads in the 1940s.

The International cab-over-engine truck has many advantages in compact the narrow of lanes and spaces of trucks. The length of the new unit is reduced by the length of the standard hood—and the spring is added to the loading space. More perfect load distribution provides greater operating economy. Increased visibility is achieved by the driver, and the unit is thoroughly maneuverable. The engine is completely accessible and the driver has easy

access to his work. The short-stroke, rubber-coupled truck is close, quiet too with a minimum of jolting—saving time, wear, and cost, for easier machine and driver. Two wheelbase lengths, 99 in. for 12 and 12½ ft., and 107 in. for 13, 14, and 15 ft. bodies back of axle.

If a truck of 17-foot capacity, in the 12,000-pound gross-weight class, fits your needs, arrange for a demonstration of the new International Model C-200 with your nearest International branch to dealer new.

Maclean's Magazine, September 1, 1936

Mr. Grouch

"I shied up feeling in legs and head, when he's ready to give up his golf drive... But two teaspoons of Sal Hepatica as a glass of water will make a difference. Soon he'll be..."

Mr. Smiles

"Head clear—energy renewed—it's wonderful on one what a difference Sal Hepatica makes... For this mineral salt laxative both cleanses the system and restores vitality... That built-up feeling doesn't happen, as it is kept in check, vitality as well as one's health is maintained."

Why you must use a laxative that COMBATS ACIDITY, too...

DID YOU know this?

It's not just constipation that robs you of your energy—spoils your fun. It is an acid condition as well. In nearly every case the two go together. And even if you correct one, the other will still bother you.

But try Sal Hepatica.

This building mineral salt laxative does not just one but two important things for your system:

1 Sal Hepatica cleanses the system quickly, gently, thoroughly.

2 Sal Hepatica combats acidity.

Yes, while Sal Hepatica is ridging the system of wastes, it is also bringing about a definite alkaline (anti-acid) reaction, to help correct your acid condition.

Soon, you feel better—more alive—more like yourself. Get a bottle of Sal Hepatica today.

Sal Hepatica does BOTH!

The Glen Clark concert was held on the lawn, in front of West College. They took pictures on the back. Even so, the audience discovered he actually fell. Followed by minutes later, he got up with some pain and being dazed, waiting for an ambulance.

"Mary?"
She turned with a start. Her eyes were very bright. It was almost as though tears were on them. "Oh, it's you," she said and went toward the door.

Final, a Feathering Crown

After Robert Taylor came to his excellent role as the handsome, charming, and slightly dim-witted Duke of Wellington, he was crowned with a feathered crown. The crown was made of feathers and was very light. It was a very nice touch to the costume. The crown was made of feathers and was very light. It was a very nice touch to the costume.

The Doorstep Rental Library

RESEARCH DESIGN

less of obvious bias. At any rate, even the critics suggested that the book's blunders were the result of a need to be in the limelight and that even Scott's own errors and contradictions beguile.

The *Chicago-Hamilton* and other new editions of a delinquent literary history. Can anyone still come to the library to see books? The library goes to find. Why do these fine books of the Chicago's public library contain a number of such titles? The Chicago Public Library was the first to publish a series of books on the history of the city, and the first to publish a series of books on the history of the city. The first book in the series was published in 1900, and the last in the series was published in 1900. The first book in the series was published in 1900, and the last in the series was published in 1900.

WHEN Shirley Oregan wakes up from a 14-hour printing job, dreading to cranky per inch the day after that he could not buy books as frequently as before. He had got into the habit of leaving those to the library, so we may infer that the linear regression is

Mr. Oros admits that he couldn't be a generalist. Mrs. Oros takes time out from her housekeeping to help. She answers the telephone calls, does the errands, and does so on.

It's an interesting business, make the Oroses—and every month it grows bigger.

Answering the Question WHAT'S NEW in RADIO

SEE and HEAR for YOURSELF

WESTINGHOUSE marks the opening of the 1937 Radio Season with the greatest array of advancements ever incorporated in any radio receiver. Not mere "technical" improvements—not simply "gadgets"—but definite, practical advances that you can see and hear for yourself.

New and greater efficiency. New beauty of design. New speakers that provide tone clarity and fidelity never achieved before. Razor-edge separation of stations... every channel picked out clear and unobstructed. Permanently "stabilized" performance that eliminates readjustment. New improvements in the famous Air-Pilot Tuning Features—an exclusive Westinghouse achievement. Every feature a Blue Ribbon feature—each an additional reason why you should never be satisfied with less than Westinghouse gives you.

CANADIAN WESTINGHOUSE COMPANY, LIMITED • HAMILTON, CANADA

ORTHO-COUSTIC TONE-CHAMBER
Enclosed resonance-chamber, with "tuned" pipes, assisting brilliant bass and natural speaking or singing voice with absence of cabinet "booms".

MAGNETITE-CORE TRANSFORMER
Outdistinguishes for life-long efficiency and adaptability.

With a Westinghouse radio your only limitation is the station itself.

EDGE LIGHTED COLOR DIAL
Vernier ratio 50 to 1. Gives double the scale expansion of any other system.

ALL-METAL BEAM POWER TUBE
Greater efficiency.

CURVILINEAR SPEAKER
For high fidelity tone reproduction. Seamless moulded and scientifically curved cone.

UNIT COIL SYSTEM
Precision made Hisscore efficiency.

CATHODE TUNING LIGHT
The electric eye that tells you when your program is perfectly tuned in.

AIR-PILOT FEATURES
Velvet touch tuning control with vernier dial giving double the scale expansion of any other system. Illuminated station finder and time map. Accurate, permanent location of all short-wave stations. No more guess-work. No more uncertainty.
